

WASHINGTON COUNTY
HISTORICAL SOCIETY, INC.

313 South Harris Street
Sandersville, Georgia 31082

CHARTERED 1976

Vol. 2, NO. 1

NEWSLETTER

March 22, 1983

NEXT MEETING: Monday, March 28, 1983, 7:30 P.M., Washington County Electric Membership Corporation.

PROGRAM : Mr. John Waters - Faculty member University of Georgia. Mr. Waters received his Bachelor and Masters Degree from the University of Georgia. He then worked as a landscape architect in California for six years before returning to the faculty at the University. His interest has been in the area of Preservation and Restoration. He has been a Trustee of both the Georgia Conservancy and the Georgia Trust for Historic Preservation.

Dr. Joseph Specht - Dean of School of Business at Georgia College, Milledgeville. Dean Specht is a native of Texas but has been at Georgia College long enough to be the senior member of the faculty. He is well known in the Washington County business community but will come to us in another area of interest. He will show slides, and talk to us about the ROE HOUSE which is one of the very few half-timbered houses left in Georgia. We hope he will tell us how he moved it from Hancock County to his farm near Milledgeville which is quite an engineering feat itself.

The Society extends sympathy to the family of Buddy Jordan in his death. We share in your loss because he was a staunch supporter of our organization. The community has lost a meticulous historian who had a natural ability for accuracy and completeness. To say we are poorer for his passing is also to say we are much richer for having known him.

1983 Dues are now payable - Please see Jackie Bell. Better still, ask a friend to join also.

Family Reunions - We hope to make this a standard part of the newsletter. Please call yours in to any of the Society's officers so it can be listed.

SEE YOU MONDAY NIGHT AT THE E.M.C.!

Osgood Bateman, President
